

THANK YOU
FOR KEEPING
THIS ALIVE

Thank you friend. What you chose to do today matters, and I wanted to be the one to reach out and say so.

We are now closer to getting destructive fishing out of our marine parks, thanks to **your** support.

I'd love for you to see how your support is making protection a reality.

Watch your special video

If you can't watch right now, here's what your donation has set in motion:

We're sailing Oceania into protected areas exploited by industrial fishing, and turning up the pressure on the government to strengthen our Marine Parks Network.

Equipping the crew with drones and underwater cameras to find out how protected Australia's marine parks truly are.

Capturing clear, independent evidence of the damage it's causing and the wildlife and ecosystems at risk.

This work only happens because people like you choose to power it, and right now there's a real window to fix what's broken in our marine parks.

We'll share more of what we actually see in Australian marine parks along the east coast soon. Follow our Oceania updates as they happen on [Instagram](#) and [Facebook](#).

Thank you again friend, for being a vital part of this. Together, we can stop ocean life from being caught where it should be safe.
